

UNLOCK SUPERIOR CONCRETE SOLUTIONS WITH BMQ VOLUMETRIC MIXER TRUCKS

READY TO REVOLUTIONIZE YOUR CONCRETE PROJECTS?

BMQ presents the Volumetric Mixer, designed for high-performance concrete applications, offering unparalleled flexibility, efficiency, and quality control.

KEY ADVANTAGES

- 1. On-Site Volumetric Mixing:** Ensure consistent quality with on-site truck mixing for every batch.
- 2. Fast & Consistent Mixing:** Save time and labor with efficient mixing, delivering consistent results.
- 3. Quick Installation:** Complete more in less time without sacrificing quality.
- 4. Reduced Labor & Waste:** Minimize material loss and maximize efficiency for cost-effective projects.
- 5. No Storage Needed:** Free up space by eliminating the need for skid and bag storage.
- 6. Enhanced Safety:** Reduce dust and create a safer work environment for your team.

PRODUCT HIGHLIGHTS

CHRONOMax

Ready for traffic in just 3 hours, be back in business swiftly with our rapid-setting solutions.

CHRONOMax offers versatile concrete mixes with Standard, LX, and SC binders, achieving 20 MPa strength in 3 hours for swift re-openings or membrane applications within 8 hours, customizable to suit your project needs.

ADHEMax

Achieve superior bond strength and adhesion with ADHEMax.

ADHEMax provides superior bond strength with latex-modified concrete mixes (5% or 15%) based on Portland cement, offering exceptional durability and eliminating the need for extensive demolition - ideal for swift structural repairs, overlays, or membrane applications within 72 hours.

Ductal

High-strength Concrete Designed for Performance

Experience Ductal®: Ultra-high performance fibre-reinforced concrete with exceptional strength (up to 120 MPa at 28 days), high ductility, and durability. Perfect for diverse projects including transportation infrastructure, hydrological structures, and buildings.

YOUR SOLUTION FOR SIMPLIFIED CONSTRUCTION

Discover BMQ Solutions - Our bagged ready-mixed concrete offers superior performance, efficiency, and reliability, requiring only water for exceptional results. With expertise ranging from severe wear to corrosive environments, our eco-friendly solutions never compromise quality.

Experience our comprehensive range tailored for industrial, commercial, and infrastructure needs, including concrete, flooring, high-strength membranes, injection resin, mortar, non-shrink grout, sealers, coatings, and structural strengthening.

Plus, with our Volumetric Mixer Trucks, precision, efficiency, and quality are guaranteed - no storage needed.

UNLEASH THE POWER OF HIGH-PERFORMANCE CONCRETE WITH BMQ VOLUMETRIC MIXER TRUCKS.
